

LUKE WALL, MD, FAAP

New Orleans, Louisiana

**Assistant Professor, Pediatrics
Section of Allergy Immunology
LSU Health Sciences Center of New
Orleans**

Dr. Wall is Assistant Clinical Professor of Pediatrics in the Section of Allergy Immunology at LSU Health Sciences Center New Orleans. He sees patients through Children's Hospital New Orleans, including satellite locations in Covington and Baton Rouge.

While his career is clinically focused, he enjoys balancing the medical care of children with clinical research and teaching. In addition to teaching Pediatric residents and subspecialty fellows, he teaches medical students both in the lecture hall and at the bedside.

He also participates in interprofessional education involving dental, nursing, medicine, and allied health schools. His clinical and research interests include primary immunodeficiencies, pediatric chronic cough, and genetic syndromes which have increased risk for infections.
