

I would like to present one of the three following practical topics for the potpourri.

- 1) Diagnosis and management of a bleeding neonate
- 2) Thrombosis in children - a Case based review
- 3) Neutropenia in children - When should I call for help?

Or

Pediatrician and Sickle cell disease - new developments to be aware of

Or

Dermatological Manifestations of Hematologic disorders

Raj Warriar MD

Pediatric Hematology/ Oncology,

Ochsner Children's Hospital

Professor Emeritus and Clinical Professor, LSUHSC

Adjunct Professor, Tulane University SOM

Professor, University of Queensland, Australia

Adjunct Professor and former

Vice Chancellor, Manipal University, India
